

Park High School is a small, high achieving, multi- cultural inner city academy in North London. We are very proud of our outstanding Value Added score at KS5 and our rich history of preparing school leavers for Oxbridge and Russell Group institutions. Despite recent successes of school leavers, a changing community demographic presents a number of challenges to the school as many students do not have English as a first language. A substantial drive on academic progress and attainment as evidenced through an outstanding ALPS T score has seen improvements in results. This has allowed our students far greater access to tertiary education and the life opportunities that are linked to Higher Education.
