

Park High School Music Department

Are you interested in
learning a musical
instrument or singing?

Would you like to earn extra
UCAS points for university?

Do you like performing or
making music with your
friends?

Learning a musical
instrument helps with other
aspects of learning

Please speak to Mrs Harris in the
Music Department in P1 about
starting music lessons in September

Why We Learn Music

Music is reading in a foreign language.

Most of the terms are in Italian, German, or French, and notation is a highly developed kind of shorthand based on symbols that represent ideas. The semantics of music is the most complete and universal language known.

Music is scientific.

It is precise, specific, and demands accurate acoustics. A conductor's score is a complex chart that indicates frequency, intensity, volume, melody, and harmony, all at once and with the most exact control of time.

Music is mathematical.

It is rhythmically based on the subdivisions of time into fractions that must be calculated, interpreted, and applied instantaneously.

Music is art.

It allows a human being to take dry, boring, and often difficult techniques and use them to create emotion.

Music is history.

It reflects the environment and times of its creation, including the cultural and social values.

Music is philosophy.

It demands research and develops insight and perspective.

Music is the human experience.

Music pieces are as complex and varied as life itself. Music inspires thought, reflection and emotion-- much like human relations do. Rhythm and tone simulate moods-- such as joy, sorrow or anger. Music relates to us the stories of human experience.

Music is physical education.

It requires exceptional coordination of fingers, hands, arms, lips, cheeks, and facial muscles. It also takes extraordinary control of the diaphragm, which in turns uses the back, stomach, and chest muscles.

You learn music so you will recognise beauty.

You learn music so you will have more compassion.

You learn music so you can be fully human.
